“TOTAL PRODUCTS VOLUME IN NOV. IS 500MT”

➤ MARKETING PRICE IN CURRENTLY AND FUTURE TREND

Because of materials in Chinese marketing was dropping about 30% few month ago, with this material's price developing, steel flanges' price was dropping together. Recently we get news that materials' marketing price is keeping on a bit stable level, changing not very much compared with before time, products price also keep on a stable level together with a little dropping. Now we predict that steel flanges' price is dropping in the valley floor, will not dropping too much like before time, it is good time to restart marketing buying and importing from factories.

➤ ITEM2. SUPPLYING ABILITY DEVELOPPING OF HYUPSHIN. ▼

Now Hyupshin company could supply about total 1000mt per month with every standard and type steel flanges, on November Hyupshin company have provide about 500mt products with JIS, ANSI AND DIN flanges, together with 100mt specialty flanges to customers, now we have enough producing ability to provide any products to our clients, welcome to contact us and inquiry your steel flanges. Will provide best products and services to you.
